Here are the pared down IRIS 101 slides that can be used for the meeting with OCSPP tomorrow. Let me know if you want to include anything else.

Becki Clark---03/01/2012 02:25:04 PM---Yes, okay. We should have some bullets in hand with examples. I think they are interested in this. -

If you are specifically referring to the current schedule for when milestones are expected, I would say no. It is in a state of flux right now as we figure out how the delays in SABs reviews impact it.

We could make a table with "next milestones" for 2012 showing where everything is???
